Course Description

In-class training focuses on preparing for fire situations, understanding fire hazards, emergency response, and personal safety when fighting fires. Trainees will have the opportunity to extinguish a real fire on our specially designed Fire Simulator (Option A).

Options

- **A - Hands-On:** each student will use the extinguishers, group maximum 25. (Additional students - \$20 pp + GST)
- **B - Demonstration:** We demonstrate to large groups the use of extinguishers. Group of 26 plus

Course Overview

The following information, guidelines and procedures will be covered:

- Preparing for fire situations
- Identifying and Assessing the fire
- Understanding associated fire hazards
- Crucial personal fire safety
- Safely confining fires where possible
- How to use first-attack firefighting equipment
- Workplace emergency fire response

Course Specific Information

All trainees are required to wear closed in shoes and no loose clothing.
